Letter of Reference: Best Management Group

Consolidated Properties Group has worked successfully with Best Management Group on a range of hotel and resort projects. Our companies began working together in 2002, and that relationship has grown and continues.

Managing Director, David Catterall and his team have extensive experience in the development and operation of hotels and resorts. As a developer, it is most valuable to work with such specialists who also understand our perspective and issues.

David Catterall played a key role in the establishment of Domain Resorts. This included the planning and opening of a number of resort developments and heading up the management of over 1,400 holiday apartments, hotel rooms and residences in various Australian locations.

Consolidated Properties Group is currently working with Best Management Group on a range of major new developments as their services add a most valuable extra dimension to our project team.

In addition to their substantial depth of expertise, I value their reliability, honesty and professional culture.

Kind Regards

Donald O'Rorke
Managing Director
