To whom it may concern.

I have known Bridget Catterall for more than 20 years, having first been introduced to her on a social basis. During that time I have come to know her well and also gain a very good understanding of person she is and the type of family she and her husband David have created.

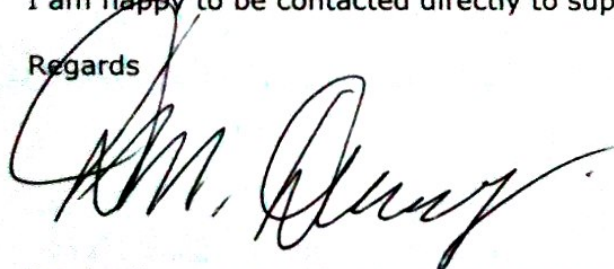

I know that Bridget herself comes from a respectable large family that has grown up in Queensland. Since being married in 1988 Bridget has reared a family of her own including 3 children each of whom are now impressive individuals in their own right.

Bridget has a strong moral and ethical fibre which has been displayed to me many times over as many years. In more recent years I have had the opportunity to also have a professional working relationship with Bridget. This is due to both her involvement in a range of tourism interests and also in her role as a judge of the Restaurant and Catering Awards where we both volunteered our services.

I have observed her to display the following attributes: high levels of energy when on specific projects, solid attention to detail. She thrives on challenges and is highly resourceful when faced with difficult projects. She is a skilled adaptable networker.

I am happy to be contacted directly to support the above reference.

Regards
